Lebanon Tactical: Authorities announce traffic restrictions on airport tunnels in Beirut-Khaldeh route from evening hours of November 26; allot for disruptions

Current Situation:

- The General Directorate of the Internal Security Forces announced that traffic flow on the western lane of the Airport Tunnels in the Beirut-Khaldeh direction will be limited to a width of 2.5 meters from the evening hours (local time) on November 26.
- The restrictions come amid scheduled road maintenance work. Authorities have not specified when roadwork is slated to end.
- Authorities have directed citizens to comply with the official instructions and follow the posted traffic signs to ensure smooth traffic flow.

Recommendations

Those operating or residing in Beirut on November 27 and over the coming days are advised to allot for disruptions while using the Airport Tunnels in the Beirut-Khaldeh direction and seek alternative routes due to the ongoing disruptions.
